

Andrii Priadko

Front-end developer

Hello! I have over 2 years of experience in web application development, public speaking skills, and more than 3 years of experience in teaching web and robotics. Currently, I am working with 3D graphics in the browser and managing the development of a charitable project, where I am writing the Front-end and Back-end of the website with my team. Additionally, I am dedicated to improving my English language proficiency.

I'm actively seeking a full-time position with a company where I can enhance my skills and learn new things. I aspire to grow as a Front-end Developer and Full-stack Developer. I am dedicated to working diligently to eventually become a Team Lead in the future.

WORK EXPERIENCE

Full-stack Team Lead / Charity Foundation "I will help you"

August 2023 - Present, online (Poland, Warsaw). Part-time

Project: [Website for the "I will help you" charitable foundation](#)
